

6 July 2026

Dear Parent or Carer,

As our year 10 students have now officially graduated into year 11, I will be writing to you weekly in order to keep you informed of key quality of education actions we are taking to support your child.

Over the last few weeks, we have consistently emphasised the importance of students engaging with activities additional to their lessons so that they can approach their GCSE exams with confidence for success. Here is a brief outline of what we expect students to be doing:

- maintaining a high attendance to school
- engaging with their in school/after school intervention (**those who are identified as needing it will receive weekly invitations by Mrs Lowe**)
- attending lesson 6 which is open to all students (**the rotation has been shared with parents and individual invitations are going out weekly by Mrs Lowe**)
- revising via SPARX for Maths and Science and completing their weekly assignment, **due in at 8am every Wednesday**
- revising at home, using the recommended subject rotation and materials, available on our Liberty Academy website, under Curriculum, Supporting Learning at Home, Year 11 Home/Tutor Revision Resources.

In other news, this week, we have some key events coming up for our year 10 students:

- **Maths QLA (Question Level Analysis):** Based on mock performance in Maths, this week students will be issued with lists of topics they have secured and topics they need to revise. Please engage in conversations with your child about this important information as it will help them to close gaps in knowledge.
- **Mock results:** Teachers are in the process of marking the scripts. We expect that students will be receiving their grades/report cards on Monday 13th July 2026.

Finally, I would like to take this opportunity to thank you for all your support so far this year. I will be writing to you weekly to flag up some key events or priorities which pertain to our year 10 students. In the meantime, please continue to support your child by ensuring regular revision and attendance to school. National exam performance data reflects the importance of attendance and revision which are key drivers to successful exam performance.

Any issues, please do not hesitate to contact me on k.hill@lib.hlt.academy – thank you.

Yours sincerely,

Mrs K Hill
